Mark allocation:

Milestone 1: Business Understanding	**30**
1. Define the problem and identify the data needed	5
2. Collect and clean the data	10
3. Pre-process and transform the data	10
4. Store the data in a database or file system	5
Milestone 2: Machine Learning Model Implementation	**30**
1. Explore and visualise the data	10
2. Develop a machine learning model	10
3. Evaluate and refine the model - hyper-parameter tuning	10
Milestone 3: DASH Web Application Development	**30**
1. Integration with ML Model – use ChatGPT prompt template	10
2. Deploy locally	10
3. Debug and fix errors	5
4. Deployment as a web service (How to deploy on render)	5
Milestone 4: Presentation	**10**
1. Communication Skills	5
2. Response to Questions	5
Total	**100**
